

KiberaAID

FOUNDATION FOR HELPING KIBERA SLUM IN NAIROBI, KENYA

KiberaAID |What we do
We collect money to buy food items, stationeries like books, pencils, shoes, clothes and many more in order to improve the living conditions of some kids in Kibera slum, Nairobi, Kenya. In extreme cases where the parent cannot pay the school fees for the child (ren) we help in any way we can, thus accompanying them until they have finished their primary education. Apart from donating goods to the children we also aim at giving them hope by the frequent motivational discussions we conduct on regular Saturdays of every month. We also engage the children in co-curriculum activities like football, dancing and singing, and, in this way we boost their self-esteem.

Drawing time with some of the kids we support.

What you can do

Just like any other aid organization, KiberaAID need funds to fully and effectively finance its activities. We are a group of students and young volunteers who invest their time, resources and energy so as to help the child of Kibera. We cannot help everybody but at least we can bring a smile into the life of a child in Kibera. It is also important for us if you spread the message of KiberaAID to your friends and families because we highly value any help that come across and any amount of contribution will fully be invested to help the kids of Kibera.

Elvis teaching some kids how to draw during one of one regular Saturday meetings.

The school bus: A drawing by Susan Achieng, one of the kid we have supported.

Our secretary Kelvin taking notes during a mentoring session with the kids. In these mentoring sessions we teach the kids life skills lessons such as hygiene and sanitation.

The game ended as a draw so we had to go for the penalties to determine on the winner. Those are the word of one of the best footballers we have in KiberaAID.

What we have done

Children having their refreshment and food after an afternoon of numerous successful activites. We do this every Saturday.

So we have supported 75 kids since our inception in June, 2014. We have provided them with school bags and all other academic related materials such as pens and notebooks. We have also provided them with food items to keep them going just for few days. Our main aim is to make a difference in the lives of these kids In Kibera especially in Soweto West and Gatwekera villages. But we are still aiming at supporting more and more kids in Kibera and also expanding our area of coverage to places like Makina, Lindi, Laini Saba and Raila villages.
